1. The first part of the book is devoted to a general introduction to the subject of the history of the English language. It discusses the various factors which have influenced the development of the language, such as contact with other languages, internal changes, and the influence of social and cultural factors. It also touches upon the classification of the English language into different varieties and dialects.

2. The second part of the book is a detailed study of the historical development of the English language. It begins with the Old English period, which is characterized by the influence of Old Norse and Old French. It then moves on to the Middle English period, which is marked by the influence of French and Latin. Finally, it discusses the Modern English period, which is characterized by the influence of scientific and technical developments.

3. The third part of the book is a study of the English language in the context of the British Empire. It discusses the role of English as a lingua franca and the influence of English on the languages of the colonies. It also touches upon the role of English in the development of the English language in the United States and Australia.

4. The fourth part of the book is a study of the English language in the context of the modern world. It discusses the influence of English on the development of the English language in the context of globalization and the role of English in the digital age. It also touches upon the role of English in the development of the English language in the context of the environment and the future of the English language.
